

UC CAR Weekly Newsletter 12.11.2020

Welcome to the weekly newsletter from the Center for Addiction Research! Each newsletter includes highlights from Addiction in the News topics as well as active funding opportunities offered by NIDA/NIAAA. We are excited to offer the addition of a new section to upcoming newsletters: "CAR Member New Publications". To have your publication included in the newsletter, please provide the Title, Authors and Affiliation and Abstract to Jen Rowe (roweji@ucmail.uc.edu). New publications received by EOB Wednesday will be included in the current week's newsletter, otherwise it will be included in the following newsletter. Please email Jen Rowe (roweji@ucmail.uc.edu) to change your communication preferences or to request additions to this distribution list.

Thank you for your interest in the Center for Addiction Research - our mission is to accelerate scientific progress in the prevention and treatment of substance use disorders and their consequences by fostering research collaborations across: 1) UC departments, colleges, and centers including Cincinnati Children's Hospital Medical Center; 2) Local, regional, and state community and governmental partners; and 3) Other academic institutions and industry.

Opioid-Related Deaths Are on The Rise in America

Addiction Center

Addiction Center is not affiliated with any insurance. Get Help Today. Since one of the main themes of this year is social distancing, it is no surprise that ...

Diseases of Despair

Addiction Center

The onslaught on America's Opioid crisis remains present in diseases and ... have found themselves addicted to the euphoria potent Opioids create.

Youth Not Immune to Rising Overdose Rates

MEDPAGE TODAY

Drug overdoses, especially with stimulants, are on the rise among children, teens, and young adults, according to an analysis of emergency department (ED) data.

Rowan researcher explores new medications targeting addiction

Rowan Today

There are also limited options for people with opioid-use disorders. Generally speaking, there are not a lot of high-quality therapies for drug addiction ...
